

CampPlus DUO en-suite - twin pod

Your own private en-suite: camping with style!

The CampPlus DUO is a high quality "pod" containing two separate en-suite rooms in a back-to-back, semi-detached layout. Your guests share the building but that's all they share as each side has its own hot water and electrical supply.

Positioned between two pitches, the DUO will provide each caravan or tent pitch with its own private bathroom facility.

No more trips to the communal toilet or shower block with the proverbial loo roll under your arm! It'll be right next door.

Each side has its own toilet, shower, sink, lighting and an individual 80 litre (electric) boiler. High-quality sanitaryware is used as standard throughout, complemented by a selection of optional upgrade items for you to command higher pitch fees, increased revenue and customer satisfaction levels.

QUALITY THROUGH AND THROUGH

- Galvanised steel skeleton frame
- Lightweight, super strong construction for longevity
- High quality Waxedwood® cladding
- Quality laminate wall panels
- 10mm thick, anti-slip, anti-scratch flooring
- High quality sanitaryware throughout

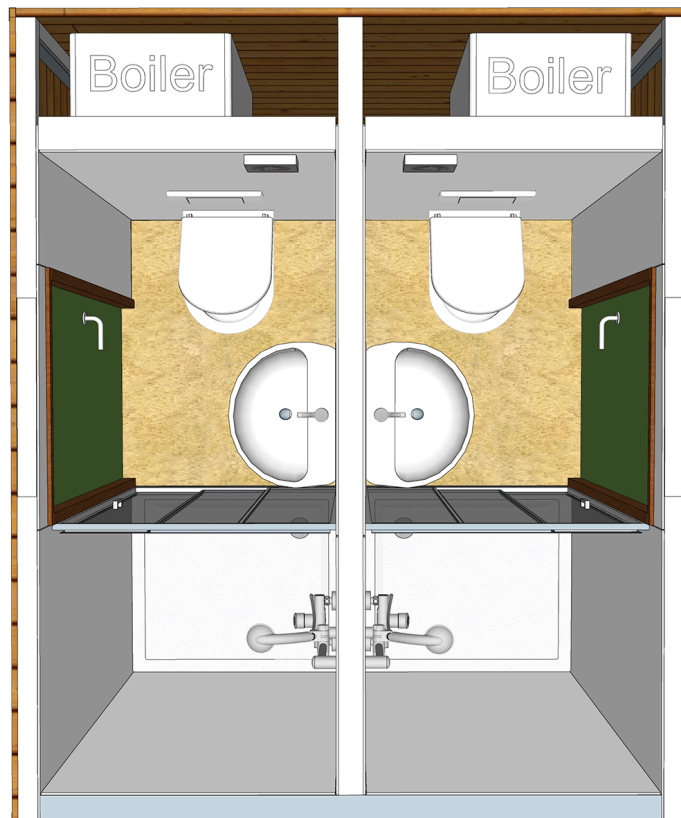

Benefits

- Increased pitch fees, revenue & user satisfaction
